**MOTION FOR CONSENT TO FILE
WRITTEN REPORT**

Docket No. 2009-015

Cause No. WD-04-2009

The Division of Oil, Gas and Mining, (Division) hereby files this motion on behalf of itself and with the consent of and on behalf of Montezuma Well Services, Inc., (Montezuma) jointly requesting permission to submit a written report in lieu of making a personal appearance before the Board as the means of addressing the annual update required by the 2010 Stipulation addressing the NOAA filed by the Division.

The Request for Agency Action (RAA) was originally filed by the Division in July, 2009 seeking a Cessation Order and civil penalties against Montezuma Well Services, Inc. (Montezuma) and Earl Martinez individually. The matter was continued based on stipulations between the parties

until August 25, 2010 when the Board heard testimony and approved a Stipulation that contained a plan for continued operation and concurrent reclamation of the facilities. The Board then continued the matter until August 24, 2011. At the 2011 August hearing the Board received testimony concerning compliance with the Stipulation from the Division and the Respondents and approved continued operations pursuant to the Stipulation as amended and continued the matter until August 2012 Board Hearing. At the August 2012 hearing the Board continued the matter for an additional year until August 23, 2013, and that hearing was continued for the convenience of the Board until October 23, 2013.

The Division has continued to monitor Montezuma's compliance with the schedule of remediation work as set out in the 2010 Stipulation and represents to the Board that Montezuma has continued to comply with the Board's Order and Stipulation and that there are no additional problems requiring Board action. The Division appreciates the Board's oversight of this matter but in light of the very full agenda for the October 23, 2013 hearing, the Division asks that the Board modify the Order to require that the Division and Montezuma submit written reports on the reclamation, and bonding activities during the past year by no later than October 21, 2013. If the Board has questions or for any reason desires to have Montezuma and the Division address the items in the report further, it shall schedule a time for such hearing at which Montezuma and the Division will appear. If there is no additional hearing set, the matter will be continued until August 2014 for an additional report at that time.

DATED this 14th day of October, 2013.

Steven F. Alder, Esq.
Counsel for Division of Oil Gas and Mining
